DEPARTMENT OF AGRICULTURE

National Institute of Food and Agriculture

**Notice of Intent to Request an Extension of a Currently
Approved Information Collection**

AGENCY: National Institute of Food and Agriculture, USDA

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Office of Management and Budget (OMB) regulations that implement the Paperwork Reduction Act of 1995 , this notice announces the National Institute of Food and Agriculture's (NIFA) intention to request approval for an extension of a currently approved information collection for Children, Youth, and Families at Risk (CYFAR).

DATES: Written comments on this notice must be received by [Insert date 60 days from publication in the Federal Register] to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments concerning this notice and requests for copies of the information collection may be submitted by any of the following methods: E-mail: gmendez@nifa.usda.gov; Fax: 202-720-0857; Mail: Office of

Information Technology (OIT), NIFA, USDA, STOP 2216, 1400
Independence Avenue, SW., Washington, DC 20250-2216

FOR FURTHER INFORMATION CONTACT: Gidel Mendez, eGovernment
Program Leader; E-mail: gmendez@nifa.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Children, Youth, and Families at Risk (CYFAR) Year
End Report.

OMB Number: 0524-0043.

Expiration Date of Current Approval: January 31, 2011

Type of Request: Intent to seek approval for the extension
of a currently approved information collection for three
years.

Abstract: Funding for the Children, Youth, and Families at
Risk (CYFAR) community project grants is authorized under
section 3(d) of the Smith-Lever Act (7 U.S.C. 341 et seq.),
as amended, and other relevant authorizing legislation,
which provides jurisdictional basis for the establishment
and operation of extension educational work for the benefit
of youth and families in communities. The CYFAR funding
program supports community-based programs serving children,
youth, and families in at-risk environments. CYFAR funds
are intended to support the development of high quality,
effective programs based on research and to document the

impact of these programs on intended audiences. The CYFAR Year End Report collects demographic and impact data from each community site to conduct impact evaluations of the programs on its intended audience.

The collection of information serves several purposes. It allows NIFA staff to gauge whether the program is reaching the target audience and make programmatic improvements. This collection also allows program staff to demonstrate the impacts that are realized as well as program capacity that is realized in the locales where federal assistance is provided.

The evaluation processes of CYFAR are consistent with the requirements of Congressional legislation and OMB. The Government Performance and Results Act (GPRA) of 1993 (Public Law 103-62), the Federal Activities Inventory Reform Act (FAIR Act) (Public Law 105-207), and the Agricultural, Research, Extension and Education Reform Act (AREERA) of 1998 (Public Law 105-185), together with OMB requirements, support the reporting requirements requested in this information collection. One of the five Presidential Management Agenda initiatives, Budget and Performance Integration, builds on GPRA and earlier efforts to identify program goals and performance measures, and

link them to the budget process. The FAIR Act requires the development and implementation of a system to monitor and evaluate agricultural research and extension activities in order to measure the impact and effectiveness of research, extension, and education programs. AREERA requires a performance evaluation to be conducted to determine whether federally funded agricultural research, extension, and education programs result in public benefits that have national or multi-state significance.

The immediate need of this information collection is to provide a means for satisfying accountability requirements. The long term objective is to provide a means to enable the evaluation and assessment of the effectiveness of programs receiving federal funds and to fully satisfy requirements of performance and accountability legislation in GPRA, the FAIR Act, and AREERA.

Estimate of Burden: There are currently CYFAR projects in 48 states and 3 territories. Each state and territory is required to submit an annual year-end report which includes demographic and impact data on each of the community projects. NIFA estimates the burden of this collection to be 322 hours per response. There are currently 51

respondents, thus making the total annual burden of this collection an estimated 16,422 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Done in Washington, D.C., this 29th__ day of _May_____,
2012.

Catherine E. Woteki,

Under Secretary,
Research, Education, and Economics
